

analyzed nearly

300,000

times a

year

The numbers make it clear.

Ninety percent of the valley's water comes from Lake Mead. But the journey between there and your faucet may surprise you.

Traveling through 6,500 miles of pipeline, your water is analyzed nearly 300,000 times a year, treated and monitored 24/7 by a team of scientists, engineers, and technical experts. All to ensure your water meets or surpasses the highest quality standards, delivered daily to the one place that matters most: Your tap.

For objective information about water quality and in-home treatment systems, visit snwa.com.

The SNWA is a not-for-profit water agency.
