“Take It Easy” Coffee Roastery & Colombian Bakery Opens in Chinatown - Ribbon Cutting

WHAT: The Molina family, of Makers & Finders fame, is unveiling their new sister concept—Take It Easy. The coffee roastery and Colombian bakery will feature fresh roasted specialty coffee, authentic Colombian cheese breads and an array of handcrafted pastries.

The minimalistic space is an open kitchen with counter service, with accents of white marble and butcher block. Take It Easy boasts a Diedrich IR-12 commercial roaster, which is infrared-powered and produces a very clean coffee roast. The Bronze colored coffee roaster is a centerpiece of the beautifully designed space. The fresh espresso is extracted by a top-of-the-line La Marzocco Modbar, a sleek, and elegant espresso machine.

The event is free and open to the public.
