

In-Person Education & Training Series

Estimating the Cost of Project Alternatives

Upgrading to energy-efficient equipment can reduce energy expenses year after year.

Get the knowledge you need to make informed decisions about equipment upgrades and facility improvements. PowerShift by NV Energy offers incentives and strategies to enhance operational performance and save energy. Join our Business Energy Services experts and learn about the latest trends to help you save. We're serving knowledge and lunch at this free in-person event!

- Learn about various cost-benefit analysis methods
- Understand building related costs and how to evaluate energy efficiency projects
- Review current online tools
- Explore energy-saving measures and project ideas
- Discover what incentives are available for your business
- Get access to the resources you need to start a project today

Register for in-person training - lunch is included!
